## CSR Report

## Our commitment

### Responsible sourcing

One of our main objectives is to carry out **responsible and sustainable sourcing**, considering its impact on the planet. In this first stage, Borges contemplates collaboration with suppliers in the agricultural sector and external services that affect other points of the supply chain, such as transport and logistics, to ensure the purchase and supply of **raw materials produced through good agricultural practices and sustainability criteria**.

### Committed people

We guarantee the well-being and development of the professionals who are part of Borges, ensuring equality, diversity and fair working conditions every day. We also work actively **to contribute to the development of the communities where we operate, generating a positive impact on them**, as we understand that the achievement of our goals will only be possible if we move forward in collaboration with our stakeholders.

### Healthy and sustainable products

Being aware of the influence we have over our customers and consumers, we consider it **is our responsibility to promote a healthy and sustainable lifestyle through our products**. Therefore, from production and processing to marketing, we work to constantly innovate, not only in nutritional improvements, but also in packaging or formats that contribute, for example, to facilitate recycling.
